

APCO Performance Summary

Company Name: **New Concept Sign Supplies Pty Ltd**

Trading As: **New Concept Sign Supplies Pty Ltd**

ABN: **86660389113**

About the APCO Annual Report & Performance

The chart below indicate your organisation's overall performance in the 2026 APCO Annual Report. With your chosen reporting period of July, 2024 - June, 2025, you have achieved a **Good Progress** overall performance level.

Understanding APCO Annual Reporting performance levels:

- 1 Getting Started:** You are at the start of your packaging sustainability journey.
- 2 Good Progress:** You have made some first steps on your packaging sustainability journey.
- 3 Advanced:** You have taken tangible action on your packaging sustainability journey.
- 4 Leading:** You have made significant progress on your packaging sustainability journey.
- 5 Beyond Best Practice:** You have received the highest performance level and have made significant progress on your packaging sustainability journey.

Packaging Sustainability Framework criteria

Criterion 1: **Governance & Strategy** This criteria considers actions to integrate packaging sustainability into business strategies.

Criterion 2: **Design & Procurement** This criteria considers actions taken to ensure that sustainability principles are considered in the design or procurement of both new and existing packaging through use of the Sustainable Packaging Guidelines (SPGs).

Criterion 3: **Recycled Content** This criteria considers actions taken to increase or optimise the amount of recycled material used by your organisation.

Contact

A: Suite 1402, Level 14, 55 Clarence Street, Sydney, NSW, 2000
E: apco@apco.org.au

Criterion 4:

Recoverability

This criteria considers actions taken to improve the recovery of packaging at end-of-life and increase use of reusable packaging.

Criterion 5:

Disposal Labelling

This criteria considers the extent to which packaging has been labelled to help consumers determine what to do with packaging at end-of-life.

Criterion 6:

On-site Waste

This criteria considers progress in increasing the amount of on-site solid waste being diverted from landfill.

Criterion 7:

Problematic Materials

This criteria considers the extent to which organisations are actively phasing out problematic and unnecessary single-use plastic packaging and preventing/reducing litter.

APCO Annual Report Criteria Performance & Responses

Provided below are your organisation's responses to the questions within the APCO Annual Report.

Criterion 1

Governance & Strategy

Q1.1 - During your 12-month reporting period, did your organisation have a documented strategy that included goals for packaging sustainability that addressed the Sustainable Packaging Guidelines (SPGs) or equivalent?

Yes No

Supporting Evidence

Criterion 2

Design & Procurement

Q2.1 - Did you use the Sustainable Packaging Guidelines (SPGs) to review your packaging during your 12-month reporting period?

Yes No

Q2.2 - Did you keep records of the outcomes of your reviews using the SPGs?

Yes No

Q2.3 - Please provide an example of a positive outcome you achieved.

Q2.4 - How many SPG reviews did you conduct during the 12-month reporting period?

0

Supporting Evidence

Criterion 3

Recycled Content

Q3.1 - In your 12-month reporting period, did you have a policy or procedure to buy products and/or packaging made from recycled content?

Yes No

Q3.2 - Did any of your packaging contain recycled content?

Primary

Yes No

Secondary

Yes No

Tertiary

Yes No

Supporting Evidence

We offer the availability to all customers to purchase PCR/PIR type label stocks if of a plastic type(BOPP). We supply sustainable Label Stocks mostly in Paper or BOPP for recyclability on end user.

Criterion 4

Recoverability

Q4.1 - In your 12-month reporting period, did you investigate the recoverability of your packaging to look for opportunities for greater reuse or recycling?

Yes No

Supporting Evidence

Criterion 5

Disposal Labelling

Q5.1 - Did you provide disposal information for your packaging on-pack during your 12-month reporting period?

Yes No

Supporting Evidence

We do not produce any end user packaging. We supply the raw materials to Label manufacturers or signage printers.

Criterion 6

On-site Waste

Q6.1 - Did you have a system to collect and recycle used packaging generated at your facilities (e.g. office, warehouse etc.) during your 12-month reporting period?

Yes No

Supporting Evidence

We supply Label Stock produced from our Overseas Mill with minimal packaging including to not use any foam type products. Where possible the pallets can be reused for customers to transport goods to their clients and ensure all container shipments do not require filling packaging that needs to be disposed of.

Your full response can be found towards the end of this document.

Criterion 7

Problematic Materials

Q7.1 - Which of the following activities did you undertake, during your 12-month reporting period, to reduce the impact of litter?

- Conducted regular clean-ups on-site
- Participated in a planned Business Clean-Up Day
- Redesigned packaging to eliminate components that may have the propensity to become litter
- Other (please specify)

- None of the above

Supporting Evidence

Additional Information

- No additional information

Q8.1 - Please tell us about any innovative packaging sustainability initiatives you have implemented during your 12-month reporting period.

Q8.2 - Please tell us of any constraints you may have had during your 12-month reporting period that has impacted on your packaging sustainability initiatives and Covenant obligations.

Full Open Responses

Criterion 6 - Supporting Evidence

We supply Label Stock produced from our Overseas Mill with minimal packaging including to not use any foam type products. Where possible the pallets can be reused for customers to transport goods to their clients and ensure all container shipments do not require filling packaging that needs to be disposed of.

We recycle all Paper/cardboard waste generated in the office into a common recycle bin and or reuse this and any plastic film wraps for packaging fillers in shipments to customers as a way to reuse.
